### Set-up/strengthen learning centres/bridge schools:

Their intern Giulia interviewed both, local citizens and those from the northeast to gain an insight into the role non-locals, particularly those from the northeast, play in the city's diversity and business. A short film with all the compiled interviews made by her was screened at the cafe, and this was followed by an open discussion where questions about acceptance in the mainland were voiced. The discussion revealed that the main reason for discrimination was lack of knowledge about the beauty of the land. This session helped in opening up possibilities for change.
